

Sonoran Stonecrete

2024 Catalog

www.sonoranstonecreteaz.com

Sonoran Stonecrete is proud of both our products and our pricing, but also the honor of servicing the construction, landscape and interior design communities as a new source for high quality and beautiful fiberglass planters for both interior and exterior applications.

Some important aspects of using our fiberglass are:

- * Lightweight - a fraction of the weight of concrete planter's huge savings on labor costs*
- * Labor Savings- no need for a crane or small army of workers to set in place now more work completed with less labor needed*
- * Durability - will outlast concrete and you won't have to worry about any cracking or weeping*
- * Longevity - can be refinished if color palette changes*
- * Quality - we use the very best materials to ensure a water tight product*
- * Heat resistant - will not radiate heat as concrete does*
